

**Kitchener Downtown CHC's Staff Commitment to
Reducing Risk of Possible Spread of COVID-19**

Kitchener Downtown CHC is committed to providing a safe environment for all who enter our facility including clients, community members, staff, agency partners, students and volunteers. This commitment requires that any person providing service as a CHC staff person or on behalf of the CHC knows the various ways to reduce the risk of the spread of COVID-19; acts to reduce the risk and supports others to reduce the risk.

Your commitment to reduce the spread of COVID-19:

- I have read all agency communications on Kitchener Downtown CHC's methods of risk reduction. I will continue to check emails and the Centre's website for any updates to the document **Kitchener Downtown Community Health Centre COVID-19 Control Steps**
- I agree to implement all PPE and infection control practices according to the current instructions.
- If I deliver CHC work from multiple locations, I will share with my supervisor my plan to mitigate the risk of COVID-19 spread (see page 2).
- If I am employed or volunteer at service locations other than the CHC, I will inform my supervisor and share my plan to mitigate the risk of COVID-19 spread (see page 2).
- If I experience an exposure or possible exposure, or if there is an outbreak of COVID-19 at my other location of service, I will inform my supervisor.
- If I feel unwell or have changes in my health, I will be assessed, screened and if required tested for COVID-19. I will keep my supervisor informed if I feel unwell or if I have changes in my health or if I am referred to testing. If I test positive, I will return to work only after a negative result.
- I agree that if I do not follow these steps, I will be asked to leave the workplace immediately, without pay. A meeting with my supervisor is required before I can return to work at the CHC.

The CHC expects that all staff will use practices in life outside of work to reduce the spread of COVID-19.
